

## Environmental Claims Services

The following are just a few examples of environmental/pollution related losses where Cunningham Lindsey can be of assistance.

- Remediation Cost Control.
- Audit of invoices from private contractors and public agencies.
- Contaminated groundwater claim activities.
- Hazardous materials cleanup and disposal monitoring.
- Oil field/energy related losses.
- Transportation of petroleum and chemical products.
- Underground and aboveground storage tank releases.
- Superfund activities.
- Document retrieval and review from federal, state and local environmental agencies.
- Toxic tort.

## Emergency Spills/Contaminant Release

In reference to the handling of environmental/pollution related occurrences, specifically associated with emergency spills and contaminant releases, we can assist with the following:

- Assist in locating hazardous material contractors to respond.
- Monitor costs through each phase of the project from cleanup through disposal.
- Communicate with and monitor all federal, state and local agencies involved, as well as assist with any environmental agency reporting requirements.
- Determine that the disposal of the waste is being properly documented in your file, keeping long-term liability in mind.
- Audit all contractor invoices.
- Audit invoicing received from local agencies, such as fire departments, state environmental units, etc.
- Secure and review all supporting documentation, such as laboratory analysis, waste manifests, etc. to document your permanent file.
